

## Student Learning Outcomes for Academic Programs

Dual/Joint A.S. in Forensic Accounting (QCC) leading to the B.S. in Fraud Examination and Financial Forensics (John Jay College) Catalog Year 2017-18

### General Education Outcomes

1. Communicate effectively through written and oral forms
2. Use analytical reasoning to identify issues or problems and evaluate evidence in order to make informed decisions
3. Reason quantitatively as required in various fields of interest and in everyday life
4. Apply information management and digital technology skills useful for academic research and lifelong learning
5. Discipline specific outcomes: A robust general education is founded on the knowledge, concepts, methods and perspectives that students gain through study of the social sciences and history, the natural sciences, the arts and the humanities. These disciplinary studies stimulate intellectual inquiry, global awareness, and cultural and artistic appreciation; they equip students to make informed judgments and engage with life beyond the classroom.
  - a. Apply concepts and perspectives from history or the social sciences to examine the formation of ideas, human behavior, social institutions, or social processes and to make informed judgments
  - b. Apply concepts and methods of the natural and physical sciences to examine natural phenomena and to make informed decisions
  - c. Apply aesthetic and intellectual criteria to examine or create works in the humanities and the arts and to make informed judgments

### Program Outcomes

- A. Integrate knowledge and skills in accounting
- B. Make ethical judgements while recognizing multiple perspectives
- C. Work collaboratively to accomplish learning objectives
- D. Analyze and evaluate business transactions and summarize for internal and external financial reporting
- E. Explain and proficiently apply accounting guidelines and practices
- F. Use foundational business principles to evaluate and solve problems for statistics and software applications.
