# See Appendix 1for data on all Awards and Scholarships offered by the college during 2015-2016

# **Accomplishments**

- 1. In comparison to previous academic years the response to all scholarship awards varied. The Continuing Academic Merit Scholarship continued to receive a strong response. The committee reviewed 234 Continuing Academic Merit Scholarship applications. However, 128 less students received the merit scholarship of \$1000 this year. Several students graduated and therefore did not receive the automatically renewed Spring Scholarship.
- 2. The recommendations from the previous years to have committee members receive the applications prior to committee meetings were followed. The review process was smoother and faster. Also, having applications to review ahead of time allowed for more thorough reviews and left time during meetings for discussions for improvement.
- 3. The practice of indicating in announcements what topics the applicant essay for the Continuing Academic Merit Scholarship should address was continued. The committee saw an improvement in the quality and quantity of the applicant essays compared to previous years.
- 4. The Continuing Academic Merit Scholarship applicant list that is numbered, sorted by GPA and also lists the current QCC credits of the applicants is extremely helpful. This format was followed as recommended previously. This made the review process easier and faster.
- 5. Committee member Dr. Shele Bannon developed a rubric for reviewing the applicant essays for the Continuing Academic Merit Scholarships. The committee convened in a separate meeting to discuss incorporating the rubric into the review process for next year. Changes to the announcements and application forms for several of the awards the committee reviews are also planned in order to solicit information from faculty recommendations that align more closely with the awards eligibility criteria.
- 6. The committee is again able to report on all of the awards and scholarships offered by the college *and their dollar amounts* (see Appendix 1). The data was obtained from Charles Petz, Database Manager, Office of Institutional Advancement
- 7. The recommendation from the previous year to send the calls for award/scholarship applications/nominations to the students Tigermail accounts as well as to the faculty was continued. This way the student could judge their eligibility and approach faculty to recommend/nominate them.
- 8. The committee's chair and secretary were taught how to upload documents to the website using the new program and the information on the website is up to date.

# Challenges

- Obtaining data for the annual report of the committee in a timely manner continues to be a challenge.
- Soliciting recommendations from faculty for the inclusion in *Who's Who in American Universities and Colleges* continues to be a challenge. The total number of applicants (30) continues to be low. The college is permitted to approve up to 150 nominees. The low number of nominees by faculty is attributed to lack of advertising by faculty and staff and lack of interest from students. The nomination form has been modified to a single page that can be filled in by hand.
- Overall, there was an improvement in the quality of the applicants compared to previous years. However, the committee *again* expressed disappointment in some of the recommendation letters received from faculty and staff. There was again great disparity in the recommendation letters. The recommendations varied from a few sentences to lengthy letters. In some cases the students were disqualified because the committee could not make a decision based on the lack of information provided in the recommendation letters.

#### **Recommendations / To Do**

- 1. **Announce** awards and scholarships opportunities on electronic boards on campus, in addition to traditional methods.
- 2. Obtaining data for the annual report: The chair and secretary of the committee should be given digital lists of all of the final recipients or nominees for the various awards, from the President's Designee's office. This should be done before the recipients are notified or nominee lists are sent out. This will make compiling the annual report an easier task. The committee chair and secretary should also be sent a digital list from academic affairs of all of the awards and scholarships offered by the college, as soon as the list is compiled for Commencement. The monetary value of the awards should be included on the list. The list provided by Charles Petz at the end of August 2016 contained data for the 2015 commencement awards instead of 2016. The data for the current year does not become available until October. The committee chair should submit the annual report without the data on all college awards and submit that data as an addendum when it becomes available.

### 3. For the **Who's Who Nominations**:

- The call for recommendations sent to the Community Dialogue should also list and thank the faculty/staff who recommended students last year.
- The committee members should urge the program directors (CSTEP, ASAP, Student Government, RIMS etc.) and club advisors on campus to recommend their students and club officers for inclusion.

- The master list of all nominees that the committee uses to decide on eligible candidates should continue to include a column labeled "recommended by." This will enable follow up questions for missing information.
- The committee should notify the recommenders of which students were nominated
- A document with the benefits of Who's Who should be prepared and attached to the call for nominations

# 4. Academic Merit Scholarships:

- Announcements for this scholarship should emphasize to students that they are writing a formal essay to request financial aid.
- The call for Merit applications should have a word counter so that the 250 word count will be met. The committee chair should follow up with Dave Moretti to accomplish this.
- The committee suggests that letters should be sent to those applicants who will not be receiving awards with a checklist of reasons why the scholarship was not awarded to them.
- The committee suggests that an auto-reply message could be sent to students upon starting the merit application process reminding them of the 15 credit requirement for the current semester.
- The new scoring sheet for the review process should include a revised version of the essay rubric developed by Shele Banon. Students who score below 3 out of 12 on the essay may not get the scholarship.

## 5. Special Awards:

- The John F. Kennedy Award and the Martin Luther King Jr. Memorial Award accounts are empty. However, the president continues to fund them through other monies because of the significance of the awards.
- The **applications for the special or commencement awards** should have sections for faculty to complete (Scholarship, leadership on campus, service to the college, promotion of racial harmony, working parents) depending on the awards.
- **Incentive Day / Evening Awards:** Include in next years' announcement that details and documentation are needed proving that applicants are working and are parents
- 6. **Shared Network Drive needed:** This committee needs access to a shared network drive for digital file sharing as a means of collecting applications. This will save a lot of paper and ink. For example each semester if the merit scholarship attracts 120 applicants, each entire application of 2-3 pages has to be duplicated 7 times for the committee members. The committee does have a Blackboard site but it was never utilized for this purpose. Google Drive or Dropbox may be preferred.
- 7. Dates for advertising or soliciting applications and recommendations for awards and scholarships:

- The **Spring 2017 Continuing Student Academic Merit Scholarships** need to be advertised early in August or early in the 2016 Fall semester. Ideally, the committee should meet in December 2016 to vote on these or a meeting in January 2017 will be necessary.
- The Spring 2017 Who's Who Among Students in American Colleges and Universities inclusion need to be advertised in early and late December so that the deadline could be in late February and the committee can meet to make decisions in early March.

# Acknowledgements

Christopher Roblodowski did a fantastic job as the secretary of the committee. He recorded and compiled the meeting minutes and submitted them in a timely manner. The minutes contained a lot of the information needed for the Annual Report and made it a lot less work for the chair to compile the report. He also spent time learning how to upload documents on the committee's website. He was very thorough in his review of the applications and made several insightful comments during the discussion of the applicants. Dr. Roblodowski was elected as the new chair of the committee. George Muchita served as a committee member, and continues to be an asset in the thorough review of the applications and discussion of each award / scholarship candidate. Kee Park was thorough in his review of the applications and contributed to the discussions about each award. Shele Bannon was also very thorough in her review of the applications and contributed to the discussions about each award. She developed a rubric over the summer for scoring applicant essays which will be utilized next year. David Rothman, the newest member of the committee contributed to the thorough review of the applications and the follow discussions. The committee wishes to acknowledge Veronica Lukas and her staff for graciously arranging, hosting and attending each meeting as well as compiling and reviewing all applications. Her office staff is also invaluable in collecting and sorting all of the applications/nominations, documenting the outcomes/results and following up on questions or concerns about specific applications.
