

## Recommended Course Sequence

### Dual/Joint A.A.S. Degree in Nursing (QCC) leading to the B.S. in Nursing (Hunter Bellevue) Catalog Year 2017-18

Clinical students in NU-101 may apply for the Dual/joint Degree Program in Nursing with Hunter-Bellevue School of Nursing. Admission to the program is extremely competitive and will be based on the student's GPA and overall academic work. A student must receive a faculty recommendation indicating a strong clinical performance in NU-101. In addition to the courses required for their A.A.S. degree, students will be encouraged to complete additional liberal arts, science, and humanities courses that can be applied to the B.S. degree. Students will be guided in the selection of these courses by an advisor to maximize the courses that meet the general education, as well as the pluralism and diversity, graduation requirements for the Hunter-Bellevue School of Nursing.

In the suggested sequence below, students are encouraged to take courses at Hunter-Bellevue School of Nursing as they are completing their curriculum at Queensborough. Students will also complete credits in excess of Queensborough's degree requirements that will automatically transfer to Hunter to expedite completion of the baccalaureate program.

#### Pre-Clinical sequence taken before entering clinical phase of Dual/Joint Degree Program

| Courses                                                                                                      | Credits   | Pre-requisites and co-requisites                                                                                                                                                                                       |
|--------------------------------------------------------------------------------------------------------------|-----------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| ENGL 101 English Composition I<br>(Required Core 1.A. – English Composition)                                 | 3         | Pre-req.: BE 112/205 and 122/226 or passing score on CUNY placement, or exemption                                                                                                                                      |
| MA 119 College Algebra* or MA 336 Statistics<br>(Required Core 1.B. Mathematical and Quantitative Reasoning) | 3         | Pre-req. for MA 119: MA 10 or passing score on the CUNY math placement exam, or exemption<br>Pre-req. for MA 336: MA 119 or MA 114 with C or better, or satisfactory score on the Mathematics Placement test, Level II |
| PSYC 101 Introduction to Psychology<br>(Flexible Core 2.E.)                                                  | 3         | Pre-req.: BE 122/226 or passing score on CUNY placement, or exemption                                                                                                                                                  |
| BI 301 General Biology I (Required Core 1.C.)                                                                | 4         | Pre-req.: BE 112/205 and 122/226 or passing score on CUNY placement, or exemption                                                                                                                                      |
| <b>Total credits for the term</b>                                                                            | <b>13</b> |                                                                                                                                                                                                                        |

#### Clinical Semester 1

\*\*Students may take one or more of these courses prior to NU-101 or during Winter or Summer Session

| Courses                                                       | Credits   | Pre-requisites and co-requisites                                                                                                                                                                                                                                                                                                         |

| <b>** HIST 127 Growth of American Civilization I – Colonial Period through Reconstruction</b> | 3         | Pre-req. or co-req.: ENGL 101                                                      |
| <b>**ENGL 102 English Composition II (Required Core 1.A. – English Composition)</b>           | 3         | Pre-req.: ENGL 101 or placement                                                    |
| <b>Total credits for the term</b>                                                             | <b>15</b> |                                                                                    |

## Clinical Semester 4

**\*\*Students may take this course during Winter or Summer Session**

| Courses                                                  | Credits   | Pre-requisites and co-requisites                                                    |
|----------------------------------------------------------|-----------|-------------------------------------------------------------------------------------|
| NU 202 Safe & Effective Nursing Care of Clients Level IV | 9         | Pre-req.: NU 201 (completed with C or better) ; Co-req.: NU 204, BCLS certification |
| <b>**NU 204 Nursing and Societal Forces</b>              | 3         | Pre-req.: NU 201 (completed with C or better) ; Co-req.: NU 202                     |
| <b>Total credits for the term</b>                        | <b>12</b> |                                                                                     |

## Summer 2

| Courses           | Credits | Pre-requisites and co-requisites                                                                               |
|-------------------|---------|----------------------------------------------------------------------------------------------------------------|
| MA 336 Statistics | 3       | Pre-req.: MA 119 or MA 114 with C or better, or satisfactory score on the Mathematics Placement test, Level II |

|                                                           |            |                                                          |
|-----------------------------------------------------------|------------|----------------------------------------------------------|
| Hunter – NU-381 Health Assessment throughout the Lifespan | 4.5        | Check individual courses prerequisites and co-requisites |
| <b>Total credits for the term</b>                         | <b>7.5</b> |                                                          |

Notes for the QCC portion of this program:

1. All students must complete two (2) WI designated classes to fulfill degree requirements.
2. Students in degree programs must complete any required remedial speech courses before graduation. See pre-requisite for NU 101.
3. \*Students who are exempt from MA 119 College Algebra are required to take MA 336 Statistics.
4. Students are required to take particular courses in some areas of the Common Core that fulfill both general education and major requirements. If students do not take the required courses in the Common Core, they will have to take additional credits to complete their degree requirements.
5. \*\*Because the clinical Nursing courses (NU-101, 102, 201, and 202) are intensive, students are recommended to take some courses during Winter or Summer sessions.

### Clinical Semester 5 – Hunter- Bellevue

| Courses                                  | Credits  | Pre-requisites and co-requisites                         |
