Position available for Full-time Junior Designer or Intern under the supervision of licensed professional. Our small studio office environment will provide a unique opportunity to experience many aspects of the design profession as well as work directly with the principal. Our design philosophy is to create buildings as sophisticated and memorable as the various neighborhoods in NYC. 0-3 years work experience. Must be authorized to work in the US.

Criteria

- Be a conceptual thinker with strong technical skills (design and drawing)
- Self motivated, fast learner, and will be willing to put in extra hours when needed.
- Ability to work on short time frames and complete projects on tight schedules.
- Must be Proficient in Revit and AutoCad. Sketchup and Photoshop proficiency a plus.
- Experience with site surveying and construction documentation is preferable but not required.
- Knowledge of New York City zoning codes, building codes, and DOB permit application process a plus.
Our internship program are suitable for students who are graduating within a year. Hands on exposure to all phases of design and construction is encouraged. Production and communication skills a must. Candidates who showcase excellent skills can be evaluated at the end of the internship term for consideration of a entry level position.
