NYU AI SCHOOL

JUNE 3 - 7, 2024
9:30AM - 4PM
FREE & IN-PERSON

Overview

Designed primarily for first- and second-year undergraduates in the NYC area with an interest in AI and machine learning, our program welcomes students from all backgrounds and majors. Whether you're from computer science, data science, math, statistics, or completely new to programming, this is your chance to dive into the world of AI.

With a **curriculum that includes lectures, labs, research talks, and group discussions**, participants will get a glimpse into cutting-edge research and its applications in modern society.

How to Apply

To apply and/or find more information on the NYU AI School, please visit the NYU AI School application webpage or scan our QR code above.

*Applicants must be United States citizens or permanent residents. We are also pursuing opportunities for undocumented and DACA students and welcome applications from these students.
