**Testimonial
from Kids College parent:**

My daughter and her friend completed the Kids College SHSAT preparation class and they both got accepted to Bronx Science! My daughter received a 539 on the test. Many thanks to a fantastic program and great teachers!

Rosa C.

Letter from the Director

What a fantastic summer! We brought together athletics, academics & enrichment classes so your children could have fun while learning all summer long. We hope we helped build a strong foundation for your child's future! We are already working on our 3rd season for the Kids College Summer Academy 2012 and plan to create an affordable payment schedule.

Your child's Summer Academy success will be seen in their grades this coming school year. Your decision to register your children with us bridged the continuity of learning without breaking the rhythm of instruction. As every parent knows, a long summer vacation without academics can lead to a significant amount of learning loss that cannot be recovered without extensive review time in the fall. Why not continue that rhythm of improvement by taking one of our kid's college fall classes. Choose one subject where they need improvement & see their grades advance!

Jacqueline Montgomery
Director of Kids College &
Personal Enrichment

All classes on this page: schedule dates are October 1-December 10 (skip 11/26)

Reading & Mathematics (Kindergarten)

Help young ones prepare to enter school!

Young students will engage in a variety of activities designed to develop and enhance their skills in language arts and mathematics before they even reach the classroom!

Students must be entering Kindergarten in the Fall or be 5 years old by January 31, 2012.

CLX-131 10 sessions / \$205

SA Sat, 9:30-11am

Reading (grades 2-6)

Read aloud, Read along, Read A LOT!

Sections are offered by grade level; please specify grade level at time of registration.

Students will learn to appreciate literature in this reading course, while enhancing vocabulary and comprehension skills.

CLX-232 10 sessions / \$250

Sat, 11:05am-12:35pm

SP-2-6 Grades 2-6 each code-level

Reading & Mathematics (1st Grade)

Children are the future – give them the support they need to excel!

This course offers literacy development to enhance oral communication, phonics awareness, word recognition, and reading comprehension. Math skills offered include working with number facts, basic numerical concepts, and simple number sentences.

CLX-132 10 sessions / \$205

SA Sat, 9:30-11am

Mathematics (grades 2-6)

Math made simple – and fun! Sections are offered by grade level; please specify grade level at time of registration.

Students will be encouraged to approach math in a fun and interactive way while strengthening their mathematics and problem-solving skills.

CLX-222 10 sessions / \$250

Sat, 9:30-11am

SA-2-6 Grades 2-6 each code-level

Arts & Crafts (Kindergarten & 1st Grade)

Explore the inner artist! Young students will develop artistic skills by working with various utensils, and learn to use art as a form of self-expression. Specialized instruction will help students develop on a personal basis and create individual art work while interacting in a group setting.

CLX-110 10 sessions / \$185 includes materials

SP Sat, 11:05am-12:35pm

Art Literature Club (grades K-2)

Young students will enjoy literature while enhancing their reading, writing, and artistic skills. There will be a “read aloud” of popular children’s books followed by creating their own art project inspired by the book they read.

CLX-114 10 Sessions / \$205

SP Sat, 11:05am-12:35pm

plus QCC Art Gallery Field Trip TBA

Sketching & Cartooning

(Kindergarten & 1st Grade)

Art imitates life in this animated class!

Young students will explore even more fun aspects of art as they learn sketching and design, draw and animate cartoon characters, and add real-life expressions and situations to produce their own cartoon creations!

CLX-112 10 sessions / \$185 includes materials

SP Sat, 11:05am-12:35pm

Hola Amigos! Hello Friends!

Spanish (grades 1 & 2)

For young learners, students will learn basic conversational Spanish. Topics will include letters of the alphabet, numbers, days of the week, months and holidays. The teacher will speak in Spanish and will encourage the students to do the same during the class time.

CLX-345 10 Sessions / \$205

SP Sat, 11:05am-12:35pm

All Math, Reading & Writing classes on this page are 10 sessions @ \$225 with schedule dates of October 1-December 10 (skip 11/26)

Writing Workshop (grades 2-4)

This workshop will give younger students the foundation to begin writing as a source of expression, reflection and personal development. Students will gain an understanding of the importance of self-expression and experiential learning through the writing of logs, journals, individual conferences, and shared experiences.

CLX-240 SA Sat, 9:30-11am

Reading & Writing Workshop (grades 5-6)

Students will further their reading and writing skills, and develop word analysis, vocabulary and comprehension skills. Read different genres of literature. Gain confidence in the writing process – prewriting, drafting, revising, proof-reading and publishing.

CLX-235 SA Sat, 9:30-11am

Reading & Writing Workshop (grades 7-8)

Students will further their appreciation of literature, while receiving personalized assistance in mastering their vocabulary and comprehension skills. Students will practice writing for information, understanding, critical analysis and evaluation as well as literacy response.

CLX-504 SP Sat, 11:05am-12:35pm

Math Workshop (grades 7-8)

Students will receive specialized attention to help master mathematics and problem-solving skills.

CLX-503 SA Sat, 9:30-11am

Writing Essays & Reports (grades 5-8)

This course will help older students establish their essay-writing skills by learning to analyze written assignments, structure essays, organize thoughts, and use sophisticated vocabulary.

CLX-341 SP Sat, 11:05am-12:35pm

Algebra (grades 6-7)

Students will practice the principles of algebra, including: polynomials, factorization, and solving equations with variables.

CLX-320 SA Sat, 9:30-11am

Intro to HS Math (grades 7-8)

Students will receive instruction, as well as coaching, in mastering advanced skills as preparation for high school-level mathematics. Topics covered include algebra and geometry.

CLX-321 SP Sat, 11:05am-12:35pm

Number the Stars (grades 4-6)

This course is based on a work of historical fiction about the Holocaust of the Second World War by award-winning author Lois Lowry. This story centers on ten-year-old Annemarie Johansen, who lived in Copenhagen, Denmark. The novel was awarded the 1990 Newbery Medal as the "most distinguished contribution to American literature for children". Read the book at home and at class to learn about the Holocaust through the eyes of Annemarie.

The book will be provided to all registrants at the first class meeting for the group to begin reading together. When the class has finished reading the book, on the last class session, they will go on a tour of the Harriet & Kenneth Kupferberg Holocaust Center on campus.

CLX-045 4 sessions / \$50

**Game Builders Academy:
Creating Video Games!**

Designing Video Games as teaching tools... learn, grow, have fun and succeed! Hands-on technology, hand-eye coordination, deconstructing systems, internalized mapping, improved eyesight, increased focus, and confidence in creating a new and individualized game are some of the many proven benefits of this program. Participants take pride in creating their own end product, which is not a commercially published video game but their own inspiration based on their imagination and academic preparedness.

Intro to Video Game Design & Development (grades 5-12)

Participants use and strengthen math, logic, communication, concentration and critical thinking skills, problem solving and creative thinking – all in the context of learning how to design and program video games! This course offers registrants an exciting introduction to the technical and artistic concepts and techniques of designing and programming video games. Students gain a working knowledge of the skills and tools necessary to design and develop video games, and will learn how to use Game Maker software and graphics programs. They will be introduced to the fundamentals of animation for use in their games, and create at least one full working video game, and an advanced pong-style game. *Prerequisites: None.*

CLX-605 SA / 9 sessions / \$395 Sat, 9-10:30am, Oct. 1-Dec. 10 (skip 10/8, 11/26)

NEW

Meaningful Play/Fun Theory (grades 6-12)

Dawn C. Hayes, social entrepreneur in non-profit ventures, program development toward visual interactive research and collaborative learning, and; Shen Christopher Lo, NYU-Polytechnic undergraduate pursuing degrees in Integrated Digital Media & Computer Science with concentration in 3D animation and cartooning and conducting gaming research in the University's new Game Innovation Lab.

Explore the powerful role meaningful play can have in developing assistive and universal design tools through do-it-yourself (DIY) technology and creative media. Participants will explore and create serious games, quirky toys, whimsical art, novel architecture, and wearable technology.

CLX-615 9 sessions / \$175

SA Sat, 10:30am-noon, Oct. 1-Dec. 10 (skip 10/8, 11/26)

SO YOU THINK YOU'VE GOT TALENT?

(ages 11-17)

Susan Agin, MS, Director of Queensborough Performing Arts Center (QPAC), member of Actor's Equity, recording artist, voice coach, Cantor

How to Audition for Broadway

Broadway is a dream for millions of young people across the world. However, if you are interested in actually auditioning for Broadway, there are several tips you need to keep in mind before ever stepping foot inside a theater. This class will help you learn how to best prepare for a musical (Broadway) audition. Learn where to look for auditions, pick the right song, interact with the casting directors, prepare your sheet music, and how to dress. Participants must bring with them 2 copies of the sheet music for an audition song they have chosen to work on.

MUX-101 6 sessions / \$125

TP Tues, 5:15-6:30pm, Oct. 11-Nov. 15

Sing with "GLEE"

This real life "GLEE" chorus will have you singing new arrangements of classic radio favorites while mastering easy choreography to enhance the overall impact of the music. The group will learn harmonies and some will be given solos. Performances will be backed by a fully orchestrated recording. Prerequisite: This program is not for the youngster who cannot keep a tune. This is for the performer who has had some music and dance training. Friends and family may attend the last class to watch final performance.

MUX-102 6 sessions / \$95

T Tues, 6:45-7:45pm, Oct. 11-Nov. 15

Strings & Things: Write the Songs & Play Guitar (ages 8 and up)

Terence Q. Dudley, President/Producer-Quentin Entertainment Inc.

Grammy nominated musician, songwriter, and producer with major artist recording credits, will introduce you to all different styles of music, allowing you to get a well rounded sense of the many sounds of the guitar. You will start with the acoustic guitar by using your fingers & your ears to learn the techniques allowing you to develop listening, reading and remembrance skills. You will also learn to write your very own songs. Bring your words and your own acoustic guitar.

CLX-426 SP / 8 sessions / \$185

Sat, 11:05am-12:50pm, Oct. 15-Dec. 3
(skip 11/26) & Dec. 10th Recital
