

Are you looking to grow your technology skill-set and begin your career?
Do you want to be trained and mentored by Expert Systems Engineers and Team Leaders?

If you answered YES, then why not join our Technical Academy and Intern with US!

Our 12 week unpaid Internship program provides an opportunity to gain hands on IT experience with a company that has a 35+ year track record of success and continued growth!

Why join the Academy?

Here you have the opportunity to gain valuable training and hands-on experience in a variety of client environments:

- Desktop and basic network integrations and support
- Loading and configuring desktop OS for standalone operation and basic network connectivity
- Installing, configuring and troubleshooting hardware, software, desktop applications and upgrades.

At the completion of the internship, you will have the opportunity to obtain A+ and Network + technical certifications (study material is provided and cost of exams are reimbursed upon successful passing of exam)

Who's Eligible?

We are looking for internship candidates that possess the following:

Working towards a degree or a certification in Technology

Motivation to learn and succeed

A valid driver's license

Access to a motor vehicle on a daily basis

Testimonials from our previous Interns!!

The internship itself has been wonderful and a great experience. I've gotten to meet many different people and train with them. Each school has been a new experience. - Tomson

My internship at Custom gave me the opportunity to work with others who had experience in the field. I learned a great deal that I wouldn't have otherwise, and it helped me hone my skills and familiarize myself with the environment here. With this I was able to accept a full time position here at Custom with confidence. -Eytan

What are you waiting for?

Apply today for an opportunity to jump start your IT career!
