Re: The Curriculum Committee meeting on September 11, 2012 at 2pm in H-345.

AGENDA

1.) Approval of Agenda
2.) Chairperson’s Report-
   • BI-141 –being revised-BI-130 now submitted
   • Physics Courses–I understand 1, we are planning on producing something you suggest for astronomy but we want to keep 110 as is so that students have the option. This is an option that will allow non-stem students to transfer a lab science to schools outside of CUNY. What we plan on doing is pulling the ph111 and changing it to the 3/3 pathways 1C course with a ph112 as the additional lab. As for 3 what kind of detail are you looking for? Also, we do not want to be limited to 3 courses, other departments (non-science) have put more than 3 courses in that bucket – why can’t we as a science department have more in 2E, a category VC Loge implies in her communications should be a science course. –Dr. David Lieberman
   • Pathways
3.) Approval of Minutes of September 4, 2012-
4.) Review of revision of Pathways Common Core Course nomination-SS-515
5.) 2:10 pm Dr. Antonella Ansani, Chairperson, Department of Foreign Languages will attend concerning:

Attached please find the revised Common Core submissions forms as well as the syllabi for LC311 and LC312. We incorrectly submitted these two courses as part of the IIA group. We would kindly ask you to remove LC311 and LC312 from group IIA, and include them in group IID using the attached revised forms.

In addition, we would also like to ask the Curriculum Committee to remove SPAN 312 and SPAN 315 from the II A group. We will revise these course submissions also so that they can be submitted to group II D.

Best regards,
Indra Avens
