

Academic Senate Agenda - May 9, 2023 - Attachment C

MONTHLY REPORT: APRIL 2023 - COMMITTEE ON CURRICULUM

To: Steven Dahlke, Academic Senate Steering Committee
From: Isabella Lizzul, April 25, 2023
Subject: Committee on Curriculum April 2023 Monthly Report for the May 2023 Senate
CC: College Archives (CWilliams@qcc.cuny.edu)

At its April 25th, 2023, meeting, the Committee on Curriculum has voted to send the following recommendations and notices to the Academic Senate:

6 new courses
2 course revisions
4 program revisions
1. **NEW COURSE**

ENGLISH DEPARTMENT

Departmental approval date: April 19, 2023
ENGL 233: Editing and Publishing a Literary Journal
3 class hrs. 1 recitation hour/3 credits
Prerequisite: ENGL102

Co-requisite: None

Course Description for college catalog:

This course offers an opportunity for students to develop and practice the skills necessary to create and publish a literary journal for a readership of the campus community and beyond. Students will compose, solicit, collect, edit, and present fiction, poetry, creative nonfiction, and/or hybrids in print and/or digital format(s). Students will learn the conventions of literary genres and through reading and discussing regional, national and/or international literary journals learn about the aesthetics of layout and presentation. They will apply this knowledge in the production, promotion and distribution of the QCC campus literary journal. Students will work with Student Activities, such as the Creative Writing Club and Art Club to increase submissions and promote the journal.

Rationale:

Currently, the QCC literary journal, *Collective*, is published once a year in the spring. The vast majority of the work is done by two professors, Alison Cimino and Benjamin Miller, and a few dedicated students. It is work-intensive, and its existence depends on the good will and service of professors amenable to seeing the yearly project through. We propose establishing a publishing class to discuss the craft and process of creating a literary journal, culminating each term in the collaborative publication and distribution of the QCC journal.

By creating ENGL-233, the literary journal will be more student-centered than currently, and it will emphasize the experience of creating a literary publication for the QCC community. By publishing the literary journal as a class project, the pedagogical benefits will be felt by up to 24 students per semester. In addition, this experiential learning opportunity will allow for more student involvement in outreach, soliciting material, editing, designing, composing, and other initiatives such as taking the journal online. QCC already has several courses that afford students the opportunity to compose creative writing (ENGL 220, 221, 222, 261, 301 to name a few); ENGL-233 will be an opportunity for students to work on the publication side, developing skills that will be useful in their post-college experiences, especially in New York City, an international hub for publishing. The student work will be eligible for national awards such as the Community

College Humanities Association's Best Literary Magazine. The implementation of designing the journal touches on several high impact practices, as there can be collaboration with other courses (art and design, information technology), utilizing SWIG or Academic Service Learning. The course will also be Writing Intensive.

Presently, the production of *Collective* without a class is unsustainable. If the professors who run the journal leave QCC or their interests change, then the literary journal—a vital campus resource that serves as an opportunity for students to see their writing in print—will be in danger of disappearing. In addition, in its current shape, only a very few students volunteer to organize and discuss submissions. Making production of the journal a class will widen participation up to 24 students for this experiential activity. Also, including a course on literary publication will add to creative writing offerings in the English Department and support the new English Major at QCC.

2. NEW COURSE

ENGLISH DEPARTMENT

Departmental approval date: November 30, 2022

INTE-219 Introduction to Black, Race and Ethnic Studies

3 class hours 1 recitation hour 3 credits

Prerequisite: ENGL-102

Co-requisite: None

Course Description for College Catalog:

This interdisciplinary course seeks to study the histories, literatures, cultures, and lived experiences of Black, Indigenous, People of Color (BIPOC) as they navigate the institutional and social structures that help them strive and keep them oppressed. The course builds cultural competency and instructs students to explore how settler colonialism, imperialist capitalism, and other contemporary and historical inequities impede social justice. The course investigates the roots of racism, the construction of whiteness, and the perpetuation of anti-blackness. Further, it celebrates the hard-won victories that have helped to advance racial and ethnic diplomacy and ethnic joy.

Rationale:

The college's new interdisciplinary concentration, "Black, Race and Ethnic Studies" requires a foundational course to ground students in the ideas, texts, and concepts they will encounter in the rest of their courses for this concentration.

3. NEW COURSE

DEPARTMENT OF HEALTH PHYSICAL EDUCATION AND DANCE

Departmental approval date: April 19, 2023

HE 203 Public Health Internship

90 hours, 2 credits

Prerequisite: HE103, IS1 51 or HE114

Co-requisite: None

Course Description for College Catalog:

This course will provide students with practical learning experiences working in the field of public health. They will apply skills learned in the classroom to real-life public health issues. Students will improve critical thinking and problem-solving skills needed and explore career opportunities prior to graduation. Students must have passed HE 103 and IS 151 or HE 114 with a C or higher. Departmental Permission Required.

Rationale:

This course is designed for undergraduate students to experience some of the real-life challenges of public health, nutrition, community health and health education. By working on current public health

Academic Senate Agenda - May 9, 2023 - Attachment C

issues under the close supervision and mentorship of experienced professionals, students apply classroom learning to field experience. In the process, they learn critical and problem-solving skills needed to excel in the field.

4. NEW COURSE

DEPARTMENT OF BIOLOGICAL SCIENCES AND GEOLOGY

Departmental approval date: April 19, 2023

BI-526, Field Internship in Public Health

2 credits

Prerequisite: Open only to matriculated students who have completed at least 12 credits of required courses in the Public Health curriculum, including, BI 520 Introduction to Public Health course; have a minimum cumulative index of 2.0; and are recommended by the departmental adviser. Students must contact the departmental adviser during the semester, prior to enrollment to make necessary arrangements.

Co-requisite: None

Course Description for College Catalog:

This internship is strongly recommended for students intending to pursue careers in Public Health. Students can earn up to 2 credits to satisfy elective requirements in the Public Health curriculum.

Students are placed for internship or field experience in selected governmental or nongovernmental organizations that are involved in advancing the health of communities, including underserved, and global populations through education, research, outreach, and service, both locally, nationally, and globally, through collaborative public health approaches to health promotion and disease prevention and intervention. Students are selected by the adviser for this course based on academic preparation and suitability for the field experience, subject to the availability of the site. This course facilitates valuable work experience and increases knowledge of specific career opportunities. Placements are semester-long (90 hours) and provide the opportunity to observe a public health professional in practice, complete a project that is mutually beneficial to the student and the organization, and synthesize knowledge and skills into public health practice. Course requirements include two mini progress reports, and submission of a final report covering the activities participated in during the experience. The student is also required to submit a timesheet and two supervisor evaluations, one in the middle of the internship and the other at the end. The final grade is determined by the departmental adviser. All internships must be completed before graduation to be included in the student's degree certification.

Rationale:

Employers in the Public Health field are more than ever looking for students who come with some amount of fieldwork or internship experience. Through this, students will be able to develop key competencies, skills, and work characteristics that employers seek in the field of Public Health. As future members of the Public Health workforce, this increases awareness of the needs, challenges, and career opportunities in the field.

5. NEW COURSE

BUSINESS DEPARTMENT

Departmental approval date: March 22, 2023

BU 406 Digital Marketing

3 hours, 3 credits

Prerequisite: BU 401

Co-requisite: None

Academic Senate Agenda - May 9, 2023 - Attachment C

Course Description for College Catalog:

This course provides an introduction to social media and internet marketing. It is designed to cover an overview of the digital marketing-related concepts and provide students with an introduction to different marketing tools to be used such as email marketing, social media channels, mobile and various issues such as measuring marketing effectiveness, online privacy and security. Students will get an understanding of how companies are utilizing digital marketing strategies to interact with customers and improve their engagement.

Rationale:

This new course provides students with the theories and conceptual knowledge related to digital marketing that is currently used within the industry.

6. NEW COURSE

BUSINESS DEPARTMENT

Departmental approval date: March 23, 2023

CIS 210 Marketing Analytics

2 Class Hours

2 Lab Hours

3 Credits

Prerequisite: CIS 101 and BU 401

Co-requisite: None

Course Description for College Catalog:

This course provides an introduction to data analytics as it is used in Marketing. Students will learn how to use various information systems and software tools to collect and analyze data and create infographics for marketing decision support including: search engine optimization, multimedia optimization, ad revenue optimization, social media, e-mail and ad campaign optimization. Students will also learn the basics of regression analysis and how neural networks and several different machine learning techniques are applied in price prediction modeling, customer satisfaction analysis, campaign analysis, market segmentation analysis, and market basket analysis.

Rationale:

This new course provides students with hands-on practical knowledge related to data and marketing analysis that is currently used within the industry.

1. COURSE REVISIONS

CHEMISTRY DEPARTMENT

Departmental approval date: April 06, 2023

In the **From** and **To** sections, include all pertinent information:

	From	To
8. Course Prefix & Number:	CH-101	CH-101
9. Course Title:	Living in A Chemical World	Living in A Chemical World

14. Curricula into which the course would be incorporated and the requirements it will satisfy:	Satisfies the Required Core, part C	

Academic Senate Agenda - May 9, 2023 - Attachment C

15. Rationale:

Not all sections of CH-101 are writing intensive. This change in the course description removes any reference to writing intensive. Sections that are WI will be indicated as such in CUNYfirst.

16. Transferability as an elective or course required by a major to senior colleges (with supporting documents if applicable). Include comparable courses at senior or other community colleges, if applicable:

n/a

17. List of courses to be withdrawn or replaced by this course, if any:

None

18. What changes in any programs will be necessitated or requested as a result of this course's changes:

None

Rationale:

Not all sections of CH-101 are writing intensive. This change in the course description removes any reference to writing intensive. Sections that are WI will be indicated as such in CUNYfirst.

1. PROGRAM REVISIONS

DEPARTMENTS OF ENGLISH, HEALTH, PHYSICAL EDUCATION AND DANCE, HISTORY, FOREIGN LANGUAGES AND LITERATURES, COMMUNICATION, THEATRE AND MEDIA PRODUCTION, AND SOCIAL SCIENCES

PROGRAM: Liberal Arts and Sciences – Associate in Arts (A.A.) Degree

Departmental approval date: April 19, 2023

10. Rationale: Why this revision is needed or desired.

Having an opportunity for students to participate in an internship course in the Nutrition Concentration will better prepare them with the skills and experience needed for the workforce. Students may also be able to receive credit-for-prior learning (CPL) if they have met the course objectives from outside experience. CPL will be determined by the Health, Physical Education and Dance Department.

Academic Senate Agenda - May 9, 2023 - Attachment C

11. Detailed Revisions

All text or items that will be deleted or changed should be marked with a strikethrough.

All new text, courses, credits, etc. should be marked by underlining.

Show the whole set of program requirements in a From/To format.

12. Program Notes

From:	To:
All students must successfully complete two (2) writing-intensive classes (designated “WI”) to fulfill degree requirements	All students must successfully complete two (2) writing-intensive classes (designated “WI”) to fulfill degree requirements

13. Course Notes (Number your notes).

From:	To:
¹ The credit range accounts for those students who opt to take STEM Variants in 1B, 1C, 2E, and the additional course in the flexible core.	¹ The credit range accounts for those students who opt to take STEM Variants in 1B, 1C, 2E, and the additional course in the flexible core.

14. Write a summary for all of the changes.

Add HE 203 Public Health Internship as major elective for Nutrition Concentration in A.A. Liberal Arts and Sciences Degree.

15. If the program revision includes course revisions or new courses, submit the appropriate Course Revision form and/or New Course Proposal Form, along with the Syllabus and Course Objectives form.

It will be a new course.

16. If courses will be deleted from the program, make clear whether the courses are to be deleted from the department’s offerings as well.

N/A

17. Explain briefly how students currently in the program will be able to complete the requirements.

HE 203 Public Health Internship course will be a major elective for the Nutrition Concentration. Current students may choose to take the course or another course from the choices currently in the program.
--

2. PROGRAM REVISIONS

DEPARTMENTS OF ENGLISH, HEALTH, PHYSICAL EDUCATION AND DANCE, HISTORY, FOREIGN LANGUAGES AND LITERATURES, COMMUNICATION, THEATRE AND MEDIA PRODUCTION, AND SOCIAL SCIENCES

PROGRAM: Liberal Arts and Sciences – Associate in Arts (A.A.) Degree

Departmental approval date: April 19, 2023

Academic Senate Agenda - May 9, 2023 - Attachment C

10. Rationale: Why this revision is needed or desired.

As a part of a larger CUNY initiative, QCC is adding a new Black, Race, and Ethnic Studies concentration to the Liberal Arts degree. This interdisciplinary concentration seeks to study the histories, literatures, cultures, and lived experiences of Black, Indigenous, and People of Color (BIPOC).

11. Detailed Revisions

All text or items that will be deleted or changed should be marked with a strikethrough.

All new text, courses, credits, etc. should be marked by underlining.

Show the whole set of program requirements in a From/To format.

¹ The credit range accounts for those students who opt to take STEM Variants in 1B, 1C, 2E, and the additional course in the flexible core.	¹ The credit range accounts for those students who opt to take STEM Variants in 1B, 1C, 2E, and the additional course in the flexible core.

14. Write a summary for all of the changes.

A Black, Race, and Ethnic Studies Concentration will be added to the degree.

15. If the program revision includes course revisions or new courses, submit the appropriate Course Revision form and/or New Course Proposal Form, along with the Syllabus and Course Objectives form.

16. If courses will be deleted from the program, make clear whether the courses are to be deleted from the department's offerings as well.

No courses will be deleted from the degree program.

17. Explain briefly how students currently in the program will be able to complete the requirements.

3. PROGRAM REVISIONS

DEPARTMENTS OF HEALTH PHYSICAL EDUCATION AND DANCE; BIOLOGICAL SCIENCES AND GEOLOGY

PROGRAM: A.S. in Public Health

Departmental approval date: HPED Biological Sciences and Geology: April 19, 2023

10. Rationale: Why this revision is needed or desired.

Having an opportunity for students to participate in internship courses will better prepare them with the skills and experience needed for the workforce. Students may also be able to receive credit-for-prior learning (CPL) if they have met the course objectives from outside experience. CPL will be determined by the Health, Physical Education, and Dance Department for HE 203 course, and by Biological Sciences and Geology Department for the BI 526 course.

11. Detailed Revisions

All text or items that will be deleted or changed should be marked with a strikethrough.
All new text, courses, credits, etc. should be marked by underlining.

HE 203 Public Health Internship course will be a major elective. Current students may choose to take the course or another course from the choices currently in the program.
BI 526 Field Internship in Public Health course will be a major elective. Current students may choose to take the course or another course from the choices currently in the program.

4. PROGRAM REVISIONS

BUSINESS DEPARTMENT

PROGRAM: A.A.S. Management

Departmental approval date: March 22, 2023

10. Rationale: Why this revision is needed or desired.

This program modification provides students with hands-on practical knowledge related to data and marketing analysis that is currently used within business and marketing.

11. Detailed Revisions

All text or items that will be deleted or changed should be marked with a strikethrough.
All new text, courses, credits, etc. should be marked by underlining.

12. Program Notes

Academic Senate Agenda - May 9, 2023 - Attachment C

From:	To:

13. Course Notes (Number your notes).

From:	To:

14. Write a summary for all of the changes.

New course CIS 210 will be added to the program as a requirement.
Existing requirement BU405 will become an elective option for the program.

New course BU 406 will be added to the program as a requirement.
Existing requirement BU 403 will become an elective for the program.

The "Additional Requirements for the Major" Section has been updated to remove ineligible courses from the list. These courses are already listed as required courses for the degree: BU 101, BU 201, BU 203, BU 401, BU 701.

The "Additional Requirements for the Major" Section has been updated to remove courses that were part of the discontinued AAS in Office Administration and Technology: BU 801, BU 804, BU 810, BU 812, BU 850, BU 856, BU 860, BU 867.

15. If the program revision includes course revisions or new courses, submit the appropriate Course Revision form and/or New Course Proposal Form, along with the Syllabus and Course Objectives form.

Done

16. If courses will be deleted from the program, make clear whether the courses are to be deleted from the department's offerings as well.

Not applicable

17. Explain briefly how students currently in the program will be able to complete the requirements.

Current students who have already taken BU 405 will have the option to substitute BU 405 for the new CIS 210 requirement.
Current students who have already taken BU 403 will have the option to substitute BU 403 for the new BU 406 requirement.
