READY TO LAUNCH YOUR CAREER IN TECH?
Join Project Alpaca's FREE 9-Month Program!

About us

Project Alpaca is a 501(c)(3) non-profit dedicated to empowering college students from underrepresented and underserved NYC communities. Our intensive program, led by industry professionals, introduces students to the tech industry and prepares them for success in roles such as software engineers, UI/UX designers, product managers, data analysts, product marketers, and beyond.

What we offer

- Tailored career readiness program
- Intimate cohort of 15 students
- Hybrid in-person and online environment

I've learned to have more faith in myself over the course of my time being a part of Project Alpaca. The recurring message I've come across has been that most people's journeys are not a straight line, and that is okay. I've also realized just how many resources there are out there that can help us make better informed decisions for our futures.

— Huda Ayaz, Cohort 2

Program includes

- Real-world projects
- Portfolio development
- Soft skills training
- Industry workshops
- Networking events
- Resume reviews
- Job interview coaching
- Company visits
- 1:1 mentorship

Don't miss out on this incredible opportunity to kickstart your tech career!
Apply for our program by May 31, 2024. Next cohort starts October 2024.
